

High security
turnstile

Guardian

Guardian is the perfect solution when security at large passageways, even unmanned ones, is needed to regulate high volumes of pedestrian transit. Designed to also work outdoors, Guardian is used at airports, sea ports, large business facilities, underground stations, train stations and stadiums.

CAME

Guardian

Advantages of Guardian

Guardian is the full-height, high performance turnstile. It is perfectly suited when security is essential. Its sturdy structure and pleasing design make it, on one hand, a sure deterrent against any criminal intent, and on the other, provide the user with total protection. Its durability and reliability are guaranteed even when used outdoors, thanks to its galvanised steel body and special epoxy varnish coating, which protects it from any corrosive elements.

AISI304 STEEL

On request the turnstile can be made from AISI 304 steel.

PERFECT INTEGRATION

Guardian can easily be integrated with Came's access control systems.

TRAFFIC LIGHT

Guardian features an integrated traffic light.

Features

- Guardian is the perfect solution if you need to secure large entrances even if not manned, with high pedestrian flows.
- Also designed for outdoor use, Guardian can be used in airports, ports, large companies, underground systems, railway stations and stadiums.
- Guardian is the high performance full height turnstile, perfect for environments where security is an essential requirement.
- Its sturdy structure and pleasing design on one hand make it a powerful deterrent for crime and on the other offer total user protection.
- Durability and reliability are guaranteed, even outdoors, thanks to the galvanised steel body and the special epoxy paint, which makes it resistant even in areas subject to corrosive agents.

The range

001PSHPS01

Clockwise "FULL HEIGHT" one-way mechanical turnstile, galvanised, painted steel body with hydraulic damper.

001PSGS3

Single "FULL HEIGHT" two-way electromechanical turnstile with 3 sectors at 120°, galvanised, painted steel body, complete with control panel and hydraulic damper.

High luminosity LED indicators, with multi-purpose display, courtesy light.

001PSGD3

Double "FULL HEIGHT" two-way electromechanical turnstile with 3 sectors at 120°, galvanised, painted steel body, complete with control panel and hydraulic damper.

High luminosity LED indicators, with multi-purpose display, courtesy light.

001PSGS4

Single "FULL HEIGHT" two-way electromechanical turnstile with 4 sectors at 90°, galvanised, painted steel body, complete with control panel and hydraulic damper.

High luminosity LED indicators, with multi-purpose display, courtesy light.

001PSGD4

Double "FULL HEIGHT" two-way electromechanical turnstile with 4 sectors at 90°, galvanised, painted steel body, complete with control panel and hydraulic damper.

High luminosity LED indicators, with multi-purpose display, courtesy light.

Dimensions

Technical features

Type	001PSHPS01	PSGS3 - PSGS4	PSGD3 - PSGD4
Protection rating (IP)	44	44	44
Power supply (V AC - 50/60Hz)	-	230	230
Operating power supply (V DC)	-	24	24
Current draw (A)	-	223	446
Weight (Kg)	400	650	400
Operating temperature (°C/°F)	-20 ÷ +65 / -4 ÷ +149		

● 230 AC
